The Officers

Pictured on this page are the officers of this fraternity. These men have given generously of their time and ability to provide this fraternity the kind of leadership a good organization needs to stay on top. These men have not only utilized their ambitions, but have added to them owing to the opportunities their positions provide. The reward they receive is the sense of satisfaction received from having undertaken an important job and having done it well. The chapter thanks these men for the fine work they have done and will continue to do in the future.
